Any one who wants a copy of "Coins Financial School," "A Tale of Two Nations," "Coin up to Date," or any other free silver literature can get the same by sending an order to H. H. Watkins. Post yourself on the silver question that you may be able to instruct others.

Frank Castle and J. C. Dexter, of Needles, and a miner named Cordray have located a mining claim west of old Union Pass that shows up well in gold. Two lots worked at the Arizona sampler this week gave a return of thirty-four dollars in gold per ton. The ledge is of immense size.

Ed Cain, one of the best miners in the county, has taken a lease on the Prosperity mine, Todd Basin, and will commence work on it in a few days. The Prosperity is one of the best mines in the district and will once again become a bullion producer under Mr. Cain's skillful management.

The Gazette in mentioning abandoned towns in Arizona gives Signal, this county, among the number. The Gazette was never more mistaken during its eventful career. Signal is one of the thriving towns of Mohave county and is now the center of one of the most prosperous mining sections of the territory.

A sack of Blackfoot ore was lost off Fred Brawn's big wagon out in the valley the other day. Cal Wilson came along soon after with the stage, picked it up and left it at the Coyote Holes water trough. It has since disappeared. The ore is rich in gold, silver and copper and the sack is worth about \$30.

The Atlanta Constitution will be given as a premium with each paid up subscription to the MOHAVE COUNTY MINER. The Constitution is the best silver paper in the United States and is doing more to educate the masses of the south on the financial issue than all the other papers in the south combined. Now is the time to send in your subscription to the MINER and receive this splendid paper.

Sheriff James Rosborough returned from an extended visit to his old home in the east Tuesday night. He says the sentiment of the east is fast crystallizing on the silver question and that if an election was held today the gold bugs would not be in it. The Sheriff visited his old home in Canada and had a splendid time. The insane man whom he took back with him to Pittsburg was handed over to his relatives, but the opinion of the family physician was that he would never recover.

Silver is on the up grade and so is copper.

John Quinn, of the Needles, is visiting Kingman.

James Uncapher was over from Mineral Park Monday.

Next Thursday will be Decoration Day. Let the people turn out and decorate the graves of the loved ones who lie in the silent tombs awaiting the resurrection day.

Hon. W. H. Lake is uncertain about the date of the grand opening ball in his new opera house, but it will be between the 6th and 15th of June. Due notice will be given.

Baile Springs ranch will begin shipping fruit about the 5th of June. Everybody who wish to get the best fruit to be obtained on the coast should send in their orders to R. Taggart & Co.

The New York Democratic press association, the other day, with only one dissent, voted to oppose any proposition favoring the free and unlimited coinage of silver. These are Grover's finger posts.

Sam Foreman returned to Kingman last night after an extended visit to his old home in Iowa. Mr. Foreman will again engage actively in mining in this county and his many friends wish him success.

Congressman Bryan will answer Carlisle's speech at Memphis. He will show the arch traitor up in his true color. It takes a man of Bryan's ability to take the scales from the eyes of the doubting Thomases.

Col. Harley Fay has sent out more free silver literature than any ten men in Mohave county. Col. Fay deserves the thanks of the silver miners, not only of Mohave county, but of the territory at large. If we would all work in the cause as earnestly as he there would not be a gold bug west of the Mississippi river.

It is thought that capital will soon be interested in the King Solomon mines, at Warm Springs, before summer is over. Big reduction works will be erected on the river and the mines and mills run by water power. No better place for the economical working of mines and mills can be found than Mohave county presents.

The Commercial Hotel will today pass into the hands of R. E. Stephens. During the management of J. N. Cohenour and his amiable wife the house became one of the best patronized hostelrys in Kingman and regret is expressed by its patrons that they have to relinquish their lease at this time. We bespeak for the new management the same liberal patronage extended in the past to this popular house.

Territorial Superintendent of Public Instruction, F. J. Netherton, writes the MINER that an examination on the subjects of Pedagogy, History of Education, School Economy and School Government, will be held by the County Board of Examiners at Kingman, on Monday, June 3d, 1895, for the benefit of teachers who wish to obtain life diplomas. All teachers who wish to take advantage of this examination should be on hand at the county courthouse on the above date.

Silver Democrats to Combine!

A meeting of the democratic county committee was held last night in the law office of Judge J. M. Murphy, at which meeting an earnest discussion of the attitude of the administration on the silver question took place. A committee consisting of Judge Murphy and William Larkin was appointed to draft resolutions and formulate an address to the democrats of Arizona calling on them to rally to the cause of silver and submit the same to a meeting of the committee to be held in the courthouse Thursday night. Every friend of silver in Mohave county is invited to be present. At this meeting a plan will be devised to form in the county, wherever practicable, league clubs to aid in spreading the gospel of free coinage among the eastern gold bug heathens. Come one, come all. Make the meeting a roasting one.

The exhibition given Wednesday evening at the courthouse by the pupils of Miss Overman's school was a most enjoyable affair. Each and every one of the little tots and the older pupils performed their parts in a most creditable manner. After the performance the children were allowed a half hour's use of the floor for their dance and that they enjoyed themselves was evinced on every smiling face. The dance following was enjoyed by everybody who attended. Refreshments were served in the hall. The ice cream and cake were delicious. Receipts of the evening amounted to something over sixty dollars.

Kingman, May 23d, 1895.

Gaddis & Perry co-operate with the people and are willing to divide the returns.

Gaddis & Perry are doing a good legitimate business and will always be found on the side of the people.

Leave your orders with Gaddis & Perry for suits. They take orders and guarantee good fits. Eastern prices.

Gaddis & Perry will take your measure for a stylish suit of clothes, at eastern prices, and guarantee a good fit.

Judge Logan's Luck.

The Prescott Courier says that M. S. Heldreth and J. E. Edelin arrived in Prescott one day last week with twenty-five pounds of rock from a location of Judge Logan's, near Warm Springs. The ledge is two feet wide and crops out for four hundred feet on the surface. The twenty-five pound lot panned out four dollars to the pound. The two gentlemen claim to have a six months lease and bond on the property and will work it for all there is in it. They tell a whole lot of rot about the country, but as far as the mineral is concerned they are correct. The mineral is there in paying quantities, but when a man tries to get from Congress to Cedar he will wish the fool killer had got in his work on the trail blazers. The nearest place to Cedar is Hackberry or Kingman. For the information of the Courier we will state that the Aquarius range, in which the mines of Burro Creek are situated, is wholly in Mohave county.

Good Mining Property.

The Jonathan and Etta mines near Wallapai Springs have just been sold by Charles and Walter Cummings. The mines were discovered by young Cummings some six years ago and have produced many thousands of dollars since that time. The surface ore, and, in fact, all the ore produced by the mine has been rich, running in the neighborhood of 400 ounces per ton. The main shaft was sunk to a depth of one hundred and fifty feet and the bottom is now in good ore. No drifting has been done from the bottom. At the 100-level drifts were run off north and south on the ledge about seventy-five and fifty feet. The north drift connects with shaft No. 2. The greater part of the ground between the two shafts has been staked out, although there is yet considerable solid ground. The mine is comparatively untouched and yet it has produced fully 100,000 ounces silver. With the outlay of a small amount of money the mine can be put on a paying basis. The situation of the mine admits of economical working and the chances are it will be paying nicely before fall.
